This document is issued by the Company subject to its General Conditions of Service, available on request or accessible at www.sgs.com/terms_and_conditions.htm and, for electronic format documents, subject to Terms and Conditions for Electronic Documents at www.sgs.com/terms_e-document.htm. Attention is drawn to the limitation of liability, indemnification and jurisdiction issues defined therein. Any holder of this document is advised that information contained hereon reflects the Company's findings at the time of its intervention only and within the limits of Client's instructions, if any. The Company's sole responsibility is to its Client and this document does not exonerate parties to a transaction from exercising all their rights and obligations under the transaction documents. This document cannot be produced except in full, without prior written approval of the Company. Any unauthorized alteration, forgery or falsification of the content or appearance of this document is unlawful and offenders may be prosecuted to the fullest extent of the law.

Summary of testing: Pad Z10 PRO model tablet has been tested according to client's request.

Tests performed (name of test and test clause):

- Client's Request

Clause:

- CPU / GPU Performance Test
- Display Brightness
- Sound Intensity
- Thermal Performance
- Button Endurance

Testing location:

Sgs Supervise Gözetme Etüd Kontrol Servisleri A.Ş. Tüketici ve Perakende Laboratuvarı (Consumer and Retail Laboratory) /

Bağlar Mah. Osmanpaşa Cad. İş İstanbul 34 No.95 A Bağcılar İstanbul 34209, Türkiye

Summary of compliance with National Differences: N/A

Copy of marking plate:

This document is issued by the Company subject to its General Conditions of Service, available on request or accessible at www.sgs.com/terms_and_conditions.htm and, for electronic format documents, subject to Terms and Conditions for Electronic Documents at www.sgs.com/terms_e-document.htm. Possible test case verdicts:

- test case does not apply to the test object .....:	N/A
- test case does not requested to the test object..:	N/R
- test object does meet the requirement .....:	P (Pass) or AP (Appropriate)
- test object does not meet the requirement .....:	F (Fail)

Testing .....:	
Date of receipt of test item .....:	21.09.2026
Date (s) of performance of tests .....:	23.09.2026 – 09.10.2026

General remarks:

The test results presented in this report relate only to the object tested.

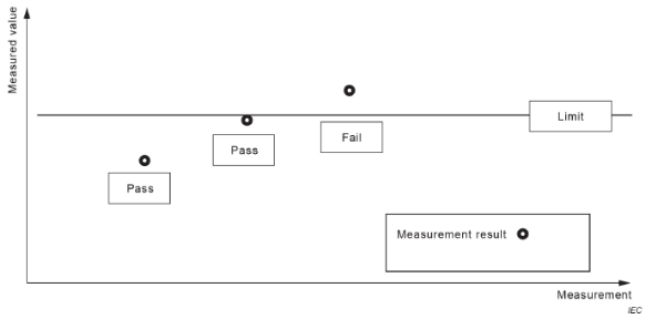

This report shall not be reproduced, except in full, without the written approval of the Issuing testing laboratory.

"(See Enclosure #)" refers to additional information appended to the report.
"(See appended table)" refers to a table appended to the report.

Throughout this report a comma is used as the decimal separator.

This test report is issued under SGS general terms of delivery (available on request and accessible at www.sgs.com). Attention is drawn to the limitations of liability, indemnification and jurisdictional issues defined therein. Unless otherwise stated: the results shown in this document refer only to the sample(s) tested. This document cannot be reproduced except in full, without prior approval of SGS.

When required in conformity assessments, Sgs Supervise Gözetme Etüd Kontrol Servisleri A.Ş. Tüketici ve Perakende Laboratuvarı (Consumer and Retail Laboratory) applies IEC Guide 115 Clause 4.4.3 Procedure 2 as decision rule.

This document is issued by the Company subject to its General Conditions of Service, available on request or accessible at www.sgs.com/terms_and_conditions.htm and, for electronic format documents, subject to Terms and Conditions for Electronic Documents at www.sgs.com/terms_e-document.htm. Any unauthorized alteration, forgery or falsification of the content or appearance of this document is unlawful and offenders may be prosecuted to the fullest extent of the law.

General product information:

- The appliance is a tablet.
- The appliance is equipped with a stand and electronic pencil for user input.

Model Table:

Trademark	Model Name	CPU	Technical Specifications
Casper	PAD Z10 PRO	MediaTek Dimensity D8300 8 Core	14,2 ‘’ OLED 12 GB RAM 256 GB Storage

Conclusion of Tests

Client’s Request		
Performance Test	**Require**	**Comply**
CPU/GPU Performance	Y	P
Display Brightness	Y	P
Sound Intensity	Y	P
Thermal Performance	Y	P
Button Endurance	Y	P
Conclusion: The tested appliance, identified as the Casper PAD Z10 PRO Tablet, successfully completed all applicable tests and met all specified acceptance criteria. Based on the test results obtained, the tested product complies with the applicable requirements.		

This document is issued by the Company subject to its General Conditions of Service, available on request or accessible at www.sgs.com/terms_and_conditions.htm and, for electronic format documents, subject to Terms and Conditions for Electronic Documents at www.sgs.com/terms_e-document.htm. SPECIFICATION REQUIREMENTS & TEST RESULTS

1. CPU / GPU Performance Test

Test Conditions

- All background applications shall be closed during the tests.
- Each test shall be repeated three times, with a cooling period between consecutive tests.
- The ambient temperature shall be maintained at 23 °C.
- The device shall be disconnected from the Internet during the tests.

Test Results

Supplementary Information:
* Measurement values are representative as score.
*The acceptance criteria and evaluation tolerances were specified by the client. A result up to 5% below the specified acceptance criterion was considered appropriate (AP), while a result exceeding the specified acceptance criterion was considered acceptable (P). The test results were evaluated accordingly.

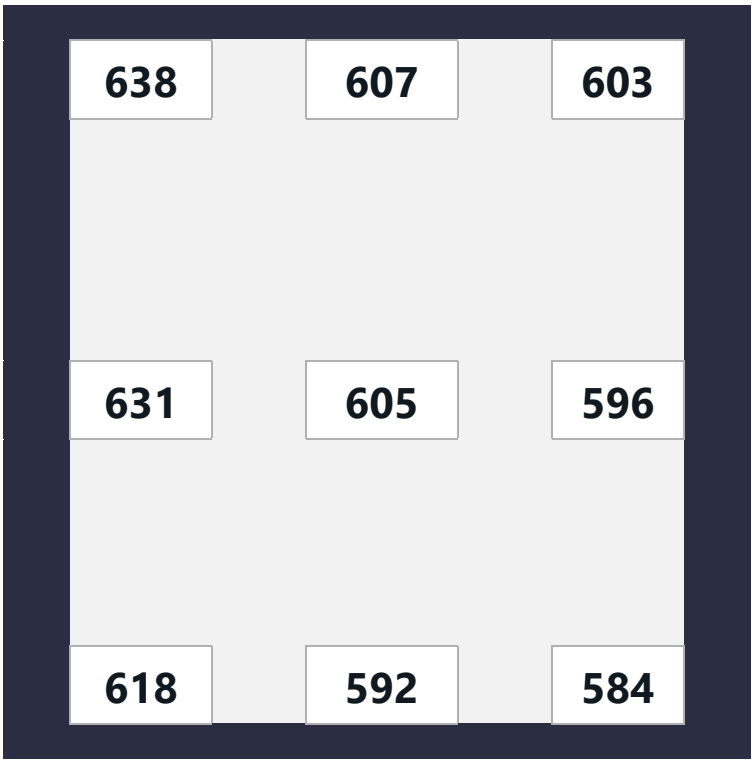

This document is issued by the Company subject to its General Conditions of Service, available on request or accessible at www.sgs.com/terms_and_conditions.htm and, for electronic format documents, subject to Terms and Conditions for Electronic Documents at www.sgs.com/terms_e-document.htm. This document cannot be produced except in full, without prior written approval of the Company. Any unauthorized alteration, forgery or falsification of the content or appearance of this document is unlawful and offenders may be prosecuted to the fullest extent of the law.

2. Display Brightness

Test Conditions

- Test shall be performed in a dark environment.
- Display brightness shall be set to 100%.
- The white-cooled image provided by the client shall be displayed on the screen.
- The unit of the measurement results is cd/m² (nit)

Test Results

	Result	Deviation	Criteria	Evaluation
Center of display	605	+ 1 %	600	P
Average of nine sections	609	+ 2 %	600	P

*The acceptance criteria and evaluation tolerances were specified by the client. A result up to 10 % below the specified acceptance criterion was considered appropriate (AP), while a result exceeding the specified acceptance criterion was considered acceptable (P). The test results were evaluated accordingly.

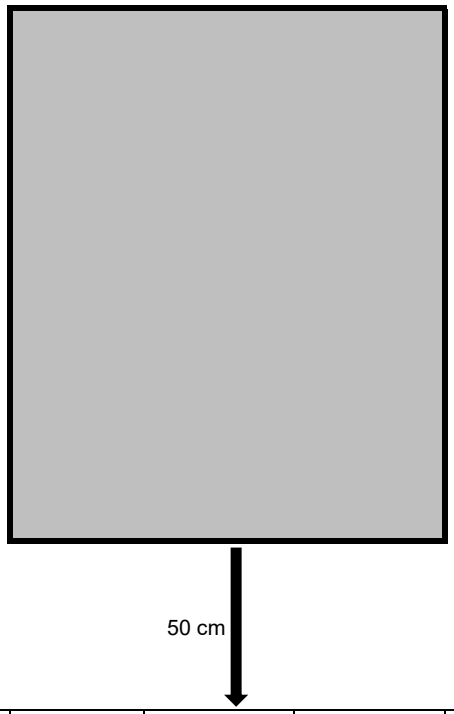

This document is issued by the Company subject to its General Conditions of Service, available on request or accessible at www.sgs.com/terms_and_conditions.htm and, for electronic format documents, subject to Terms and Conditions for Electronic Documents at www.sgs.com/terms_e-document.htm. Attention is drawn to the limitation of liability, indemnification and jurisdiction issues defined therein. Any holder of this document is advised that information contained hereon reflects the Company's findings at the time of its intervention only and within the limits of Client's instructions, if any. The Company's sole responsibility is to its Client and this document does not exonerate parties to a transaction from exercising all their rights and obligations under the transaction documents. This document cannot be produced except in full, without prior written approval of the Company. Any unauthorized alteration, forgery or falsification of the content or appearance of this document is unlawful and offenders may be prosecuted to the fullest extent of the law.

3. Sound Intensity

Test Conditions

- Test shall be performed in a quit environment (30 – 33 dB)
- The sound provided by the client shall be played on the tablet.
- Each test shall be repeated three times.
- Measurements shall be done with 50 and 100 cm distance from the tablet.
- The unit of the measurement results is dB.

Test Results

	1. Meas.	2. Meas.	3. Meas.	Average
50 cm	79	79	80,2	79,4

	1. Meas.	2. Meas.	3. Meas.	Average
100 cm	76,2	77,5	77	76,9
Supplementary Information: The customer has confirmed that the Sound Intensity Test results meet their own acceptance criteria.				

This document is issued by the Company subject to its General Conditions of Service, available on request or accessible at www.sgs.com/terms_and_conditions.htm and, for electronic format documents, subject to Terms and Conditions for Electronic Documents at www.sgs.com/terms_e-document.htm. Any unauthorized alteration, forgery or falsification of the content or appearance of this document is unlawful and offenders may be prosecuted to the fullest extent of the law.

4. Thermal Test

Test Conditions

- All background applications shall be closed during the tests.
- The tablet shall not be charged during the test.
- Display brightness and sound level shall be 100 %
- Video which provided by client shall be played.
- The ambient temperature shall be maintained at 23 °C.
- Test duration shall be 1 hour.

Test Results

Measurement Location	Average	Max	Results	Criteria	Evaluation
Back Cover (Top-Left)	29,8	32,7	- 27 %	45	P
Back Cover (Bottom-Left)	28,9	31,8	- 29 %	45	P
Back Cover (Top-Right)	27,7	29,5	- 34 %	45	P
Back Cover (Bottom-Right)	29,0	32,1	- 29 %	45	P
Display (Center)	29,4	32,9	- 27 %	45	P

Supplementary Information:
* Measurements were performed using Keysight 34970A Data Logger and Thermocouple
* The unit of the measurement values is degrees (°C).
* The acceptance criteria and evaluation tolerances were specified by the client. Results below the specified acceptance criterion were considered acceptable (P), while results exceeding the specified acceptance criterion by up to 10% were considered appropriate (AP).
* The test results were evaluated accordingly. The evaluation was based on the maximum results obtained.
